

Rebecca Turner

Graphics & Branding Digital & UI Design Illustration

As an artistic person I have a passion for design and being creative in both my work and my free time. Staying active is important to me, I enjoy skiing, cycling, running and going for walks. I am an avid gamer of both the video and board variety. My interests also include history and culture, so visiting places of historical and cultural significance, as well as museums and galleries is something I enjoy when I can. I am a social person and like to maintain an active social life, I delight in meeting people and making new friends.
